

Family & Children

Investment Guide

WE BEGIN WITH

THE END IN MIND

There is little value in your portraiture investment unless you have something tangible at its conclusion to enjoy. A printed piece that lives permanently in your home will be cherished for generations to come. Plus, university research has proven that printed art of your family members provides 65% more emotional connection to your loved ones than swiping through electronic images on a device. Research has also proven that images visible and on display for your children to see, improves their sense of belonging, raises self-esteem, and instills security in their family unit.

Our mission is to help you create something not only tangible for your home, but also deeply moving for you and for your children to love and adore as the years pass. There's a reason you chose to invest in professional portraiture. We plan to ensure that reason resonates in your heart each and every day, and that your printed portrait art does nothing but grow in sentimental value as your children grow, and as time rapidly rushes by.

THE ART COLLAGE COLLECTION

Sometimes you need multiple images to tell the story of your child or family. That is why we created our custom art collages! They are unique composites of your favorite images in a variety of layouts and frame options. These multi-image personalized collages come with a frame or as a canvas wrap and are ready to hang.

Art Collages also look beautiful upgraded to a floating metal print.

Art Collages are the perfect compliment to your framed wall portrait. They can hang in your children's rooms, hallways, guest room or play room!

Petite Size - 425 | Classic Size - 795 | Ultimate Size - 995

TO BIG? OR TO SMALL?

Knowing what will fit in the space you are planning for is key to creating an art series that shines.

1. Choose the right images for the size you are printing. Big prints look better with full body images. Small prints look better closer in.
2. Measure your space. You'd be surprised how big you can go.
3. Let us help you with our design software. If you photograph your wall, we can show you images on YOUR walls in the right sizes.

ALBUMS & MEMORY BOXES TELL YOUR

VISUAL STORY

Sitting down with your child on a holiday or even any random day, and turning through the pages of their baby book is quality time you can never replace.

The album is the coveted artwork your children will fight over long after you and I are gone. They hold precious memories of images, but also of experiences each and every time you open the book together.

Allowing for the display of multiple images from your session, a book or album tells your family story and reminds us that flipping through pages can start wonderful conversations, remind us of beautiful times gone by, and stress to our children how truly, deeply loved they are.

Album making at its absolute finest, the Cloud 9 Album is a masterful fine art piece that holds 40-50 images from your session on 20 thick, fine art board pages. Book bound with a seamless gutter and either an image, or leather cover, gives this album a modern, clean and elegant feel. Each page is an experience to turn. This album is made by master printers with the finest materials possible.

Please allow 6-8 weeks production time.

Albums can be displayed on an easel, in a bookcase, or set out on a coffee table for family and friends to enjoy all the time. Encouraging viewers to open and engage with multiple images, albums create the strongest emotional reaction to your images and become the coveted family heirloom.
